

Test report

OK

Crucible 1.1.0 by Luciano Federico Pereira

1583 tests · 1581 passed · 2 flagged · 101.023s

Problems

Skipped (2)

- 1 tests/unit/Extension/AssertNoDuplicationTest.php::testTheAbsentToolSaysWhichPackageIsMissing [skip]
phpcpd-next is installed, so its absence cannot be observed.
- 2 tests/unit/Extension/DuplicationCheckTest.php::testAskingForTheCheckWithoutTheToolSaysWhichPackageIsMissing [skip]
phpcpd-next is installed, so its absence cannot be observed.

Slowest tests

These durations are inflated: xdebug is loaded in coverage mode and hooks every call. Re-run with -d xdebug.mode=off to time the tests instead of the profiler.

Both spellings agree on every case · ArchDependency	9.32s
A sibling reference inside the target is not a use · ArchDependency	3.73s
A reference from outside makes a class used · ArchDependency	3.58s
A sibling reference does make a class used · ArchDependency	3.57s
A test slower than its size allows is risky · TestRunner	3.16s
The extension agrees with the incumbents line for line · ExtensionParity	2.35s
An unregistered generator is reported and a registered one is not · ApprovedGeneratorRule	2.13s
Wildcards match within and across segments · ArchRule	2.08s
Every preset produces a context · EnvironmentSimulation	1.92s
Used in nothing is an empty allowlist · ArchRule	1.79s
